SAN FRANCISCO--ONE HUNDRED CARBINE-CARRYING SOLDIERS PREPARED TO GO ASHORE ON BRUSH-COVERED ANGEL ISLAND TODAY IN A "FINAL MOP-UP OPERATION" IN THE SEARCH FOR THREE CONVICTS WHO ESCAPED FROM ALCATRAZ PRISON.

A SIXTH ARMY SPOKESMAN SAID 100 TROOPS OF THE 361ST ENGINEERING COMPANY, FT. BAKER, WOULD BE TRANSPORTED BY LCM LANDING BARGES TO JOIN 35 MILITARY POLICE ALREADY ON THE ISLAND. THE ESCAPEES HAD BEEN REPORTED PLANNING TO HEAD FOR ANGEL ISLAND, TWO MILES FROM ALCATRAZ. BUT WARDEN OLIN D. BLACKWELL SAID "I'M NOT CONVINCED THAT THEY'RE NOT STILL ON ALCATRAZ." HE SENT A DOZEN GUARDS CARRYING CLUBS TO PROWL THE ROCKY, CAVE-POCKED SHORE OF THE 12-ACRE PRISON ISLAND.

FROM : C. A. Evans

SUBJECT: FRANK LEE MORRIS  
JOHN WILLIAM ANGLIN  
CLARENCE ANGLIN[REDACTED]  
ESCAPED FEDERAL PRISONERS  
CONSPIRACY

SAC Price called and advised of the following developments in the Alcatraz escape case.

At the outset of this investigation the San Francisco Office alerted the operators of "debris boats," which are boats maneuvering in the Bay. Mr. Price has just been advised one of these boats has recovered a paddle in the water approximately one mile east of Alcatraz in the Bay. Price does not have the description of this paddle as yet.

In addition, these boats have recovered from the water what has been described to Mr. Price as a "water proof bag" containing several letters, some of which mentioned the names of Anglin and Morris.

Mr. Price advised that the above material is being brought ashore by the Coast Guard and he has made arrangements to have Agents immediately obtain this material for appropriate examination.

ACTION:

Price is following through immediately concerning these new developments and will keep the Bureau fully advised.

EX-114

REC-2076-26295-16

Mr. Price will maintain the no comment position in the event newspaper inquiries are made relative to this new development.

ESCAPED PRISONER, WALTER  
CONSPIRACY

It has been determined that two additional inmates of Alcatraz were in on the escape plot. [REDACTED] admitted that he had conspired with the escapees. [REDACTED] dug seven or eight holes in the vicinity of the ventilation in his cell over a period of two weeks. He then decided to abandon the idea of escaping and concealed the holes.

[REDACTED] identified [REDACTED] as a fellow conspirator along with the other escapees. [REDACTED] dug 36 holes in back of his cell but was told by the others to stop digging for a while because of the plumbing being installed in the utility corridor in back of the cells. The facts are being presented to the United States Attorney in San Francisco relative to prosecution of the inmates who were in on the escape plot.

U.S. COAST GUARD ADVISED AT NINE TWENTY FIVE A.M. THEY HAD RECEIVED REPORT FROM A BUS DRIVER CROSSING THE SAN FRANCISCO OAKLAND BAY BRIDGE THAT HE HAD OBSERVED WHAT RESEMBLED A BODY TO BE FLOATING IN THE WATER APPROXIMATELY ONE HUNDRED YARDS SOUTHEAST OF THE CENTRAL TOWER. THE COAST GUARD IMMEDIATELY DISPATCHED TWO BOATS TO THE AREA, AS WELL AS AN ARMY BOAT FROM FORT POINT AND IT WAS ASCERTAINED THAT THE SIGHTING WAS ACTUALLY A PIECE OF DRIFT WOOD.

ASSISTANT DIRECTOR FRED. T. WILKINSON, FEDERAL BUREAU OF PRISONS, VISTING ALCATRAZ FROM WASHINGTON, D.C., QUOTED IN PRESS AS SAYING, QUOTE INFORMATION SO FAR LEADS ME TO BELIEVE DEFINITELY THAT THESE THREE MEN, EACH OF WHOM I KNOW WELL FROM THE ATLANTA PENITENTIARY, MADE IT OFF THE ISLAND BUT NEVER MADE IT TO SHORE. THE TIDES AND WINDS THAT NIGHT WERE STRONG, THESE CONVICTS WERE NOT THE ATHLETIC TYPE. ONLY A TRAINED ATHLETE COULD MAKE SUCH A SWIM. UNQUOTE.

WILKINSON FURTHER QUOTED AS SAYING, QUOTE THESE MEN HAVE NEITHER FRIENDS OR RELATIVES WITH RESOURCES TO COME TO SAN FRANCISCO AND SPEND TIME AND MONEY NECESSARY TO HELP IN AN ESCAPE. IT WOULD COST THOUSANDS OF DOLLARS TO PUT A BOAT IN THE BAY EVERY NIGHT, SAY FOR A MONTH, WAITING FOR THE RIGHT NIGHT. IT IS A MATTER OF LONG PRISON EXPERIENCE THAT IN TEMPORARILY SUCCESSFUL ESCAPES, THE FUGITIVES BEGIN TO LEAVE A

CLOSELY MARKED TRAIL WITHIN A FEW DAYS. THEY HAVE TO GET CLOTHING OR FOOD OR DO SOMETHING TO GET MONEY. THERE HAS BEEN NONE OF THAT IN THIS CASE. IT WOULD TAKE AN ATHLETE TO SUCCESSFULLY MAKE A SWIM. THE ONLY SWIMMING THESE FELLOWS WERE ACCUSTOMED TO WAS IN LITTLE OLD CREEKS OR IN THE SWAMPS OF FLORIDA AND LOUISIANA. UNQUOTE.

The Attorney General

June 18, 1962

Frank Lee Morris  
John William Anglin  
Clarence Anglin  
Inmates Federal Prison  
Columbia

Relative to the escape of Morris and the two Anglin brothers from Alcatraz on June 11-12, 1962, an article appeared in the June 18, 1962, issue of the "San Francisco Chronicle" quoting James V. Bennett, Director of the Bureau of Prisons, concerning the recovery of plastic bags containing the names and addresses of persons the escapees planned to contact.

The rubberized packets found in the San Francisco Bay on June 14, 1962, which contained photographs, names and addresses on slips of paper were identified as property of John and Clarence Anglin.

We are continuing our intensive investigation to locate the escapees. A release such as appeared in the "San Francisco Chronicle" on June 18, 1962, makes it more difficult to conduct the investigation since if, in fact, these prisoners successfully reached the mainland they obviously would not contact the persons whose names were known to be in the possession of investigative authorities.

TO : Mr. Mohr

DATE: June 15, 1962

FROM : C. D. DeLoach

SUBJECT: FRANK LEE MORRIS - FUGITIVE  
JOHN WILLIAM ANGLIN - FUGITIVE  
CLARENCE ANGLIN - FUGITIVE  
ESCAPED FEDERAL PRISONERS

For record purposes, at 2:30 p.m., today, SAC Price of the San Francisco Office telephoned and talked to Wick on captioned matter. Price made reference to the finding yesterday, 6-14-62, by a debris boat in the Bay of packets containing photographs and papers of the Anglin brother's. Price, of course, maintained no comment when queried by newspapers and neither confirmed nor denied this development.

Mr. Price said that ██████████ "Independent Journal," San Rafael, California, was most insistent that Price comment on the finding of the material in the Bay. SAC Price told ██████████ he could make no comment, that the full forces of the FBI were pressing into the search for the escaped prisoners and that we just could not comment on developments or phases of the case. ██████████ told Price he was very disappointed in Price and believed a minor matter such as a finding of "something" in the Bay relative to the escape should be made available to the press since, after all, the subjects might be on the mainland endangering citizens, and the public has a right to know it. SAC Price reiterated that the FBI's job is now to locate and apprehend these men and not talk about any phase of the investigation.

SAC Price said ██████████ indicated that he might contact the Bureau. Price was told that in the event ██████████ does so we will, of course, maintain a no comment.

SPECIAL INVESTIGATIVE JVISION

June 13, 1962

Background:

All-out investigation is being conducted to trace the trio whose escape from Alcatraz came after a year's activities and planning, which included use of dummy heads to simulate presence during evening bed check. Raft constructed from approximately 55 raincoats which subjects had managed to collect may have enabled them to reach Angel Island, although experts advise strong prevailing tides would have made passage in the direction contemplated extremely difficult. During early morning hours of June 13th, Coast Guard recovered paddle of type used by subjects floating in bay between Alcatraz and Angel Islands.

REC'D-READING ROOM

Intensive investigation is being conducted by those the trio consisting of Frank Lee Morris and John and Clarence Anglin, who managed to effect their escape from Alcatraz on June 11, 1962.

Reported as extremely dangerous convicts, Morris was serving a sentence for bank burglary and the Anglin brothers, were serving sentences for bank robbery. The Anglins had a recent history of attempted escape as during 1960 they were involved in an attempt to flee from Leavenworth by a plot consisting of concealing one of the brothers in a metal breadbox.

Our investigation at Alcatraz has determined that a fourth inmate, [REDACTED]

MAILED 2

originally a part of the escape plot but was left behind. Over a year, these inmates have worked on an elaborate plan designed to effect their liberty having effectively disconnected [REDACTED] at the rear of their respective cells which allowed entry to a common utility corridor containing plumbing, heating and lighting conduits. In addition, the inmates carved ears from plywood and had collected approximately 56 raincoats which were fashioned into a poncho about six feet by fourteen feet. The raincoat material was also utilized to provide individual life vest-type life jackets. The jacket worn by inmate [REDACTED] has been recovered by our agents.

Our Agents [REDACTED] found several plaster casts [REDACTED] with hair attached which had been used to simulate inmates during night bed checks.

**The Attorney General**

The inmates left the prison from first floor tier cells through the utility corridor and thence by climbing on pipes to a ventilated area, by which route, they were then gained to the roof. After crossing the roof of first story, the inmates slid down a drainpipe along the side of the building approximately 20 feet to a location about 100 yards away from the water.

[REDACTED] has confessed that the inmates worked in the escape area over a long period but covered the ventilator with plaster painted black to conceal their activities. The escapees were discovered missing at 7:15 a.m. June 12, 1962, although [REDACTED] has confessed departure occurred immediately following the 9:30 p.m. bed check on June 11, 1962. Thus it appears the escapees had a ten-hour advantage preceding the discovery of the break by prison officials.

No movement identifiable with the escapees has been detected since notification of the break. All-out investigation to locate the escapees is continuing.

SPECIAL INVESTIGATIVE DIVISION

June 14, 1962

Summary:

On June 14, 1962, debris boat sweeping bay area one-half mile east of Alcatraz retrieved two packets fashioned from raincoat-type material sealed in manner used in preparation of Mae West jackets by subjects. Packets contained photographs and papers connected with Anglin brothers. Also retrieved in the whirlpool were old innertubes and paddle-like pieces of wood. Debris boats, continuing sweeping operations, have located no additional objects or bodies. Coverage to trace any possible movement indicating presence of the escapees is continuing.

SAC Price, San Francisco, called at 8:23 p.m., 6-15-62, and advised of the following developments in the Alcatraz escape case.

A man and his wife, [REDACTED] at approximately 3:30 p.m. PDT, were walking along a section called Cronkhite Beach, an area approximately 3 3/4 miles west of the Golden Gate Bridge, outside the Golden Gate on the Pacific in Marin County. [REDACTED] saw an object floating in the surf approximately 50 feet from the shore. Approximately 10 minutes later the object washed ashore and was noted to be a life jacket which was taken by him to the Sausalito Police Department who in turn called the San Francisco Office.

The San Francisco Office has the jacket and an SA working on this case has identified it as identical in makeup and composition and similar to the other life jacket which the San Francisco Office had obtained from subject [REDACTED]. The jacket is pretty much intact. It has a small tear in one seam which would be sufficient to allow air to escape. The paperclip which was designed to place on the tube of the jacket to hold the air in was missing. The jacket was not torn or cut up. Subject [REDACTED] had previously stated it was the intention of the subjects to cut and tear up the life jackets when they reached shore and throw them back into the ocean.

SAC Price advised that it still can't be concluded whether or not the subjects had reached shore.

San Francisco teletype of 6-15-62 advised that [REDACTED] who had previously reported a telephone call from a person who held himself out to be John Anglin, advised that she had received another telephone call. This call was from a [REDACTED] phonetic," and [REDACTED] is now certain that she is being subjected to a practical joke. *b7c*

San Francisco teletype of 6-15-62 advised that columnist Drew Pearson was at Alcatraz Island from 8:35 a.m. to 10:00 a.m. on 6-15-62. He was permitted to view the main cell block and walk through the dining room. He viewed a cell block which is no longer used because of its deterioration and he was very interested in this cell block. He asked many questions about the history of Alcatraz. The prison officials gained the impression that Pearson was not interested in the escaped inmates or the investigation to locate them. He appeared interested in the operation of the penitentiary and indicated that it should be maintained in better condition. It appears that Pearson will do one or more articles on Alcatraz Penitentiary.

ACTION:

Price is continuing to follow this matter closely and will keep the Bureau advised of all developments.

Attached for preparation and immediate distribution are drafts of wanted flyers concerning Morris and John and Clarence Anglin.

This is the trio whose escape from Alcatraz on June 11, 1962, came after a year's activities and planning, which included preparation of dummy heads to simulate presence during evening bed check. A pontoon-type raft constructed from 55 raincoats subjects had managed to collect may have enabled them to reach Angel Island. A homemade wooden paddle of the type subjects carved from materials collected at Alcatraz has been recovered by the Coast Guard near Stuart Point Lighthouse and indicates the possibility that the trio traversed the treacherous currents, although experts advised the strong prevailing tides would have made passage extremely difficult, even if their float held together.

Based on previous FBI investigations, Morris was convicted of bank burglary in 1956 and the Anglin brothers convicted of armed bank robbery. Morris and the Anglins are desperate, inerrigible criminals with lengthy arrest records and previous escape histories.

A Federal warrant was issued on June 13, 1962, charging Morris and the Anglins with escaping from the U. S. Penitentiary, Alcatraz, California, where confined under the direction of the Attorney General of the United States.

50 copies of the wanted flyers should be sent to all offices airmail special delivery. Regular allotment of wanted flyers should be forwarded to all divisions by regular mail.

SUBJECT: FRANK LEE MORRIS - FUGITIVE

 CONSPIRACY

This is in reply to the Director's inquiry as to whether the Anglin brothers were prosecuted in connection with the attempted escape from U. S. Penitentiary, Leavenworth, Kansas, in 1960 or whether the matter was handled administratively by the Bureau of Prisons.

Our files indicate that on August 8, 1960, Clarence Anglin attempted to escape by concealing himself in a metal breadbox which was to be transported to the Leavenworth Honor Farm. The facts showed that John William Anglin assisted his brother by pushing the breadboxes, including the one in which Clarence Anglin was concealed, onto the elevator from which point they were to be transported to the Honor Farm. According to testimony of [REDACTED] Food Supervisor, Leavenworth Penitentiary, [REDACTED] discovered movement between the breadboxes and after receiving assistance from the Assistant Food Supervisor, discovered Clarence Anglin concealed inside, with an iron bar and a knife in his possession.

Prosecution of Clarence Anglin was authorized by the U. S. Attorney and on 12/19/60, upon a plea of guilty Anglin was sentenced to two years to run consecutively to the sentence he was then serving on bank robbery.

Assistant U. S. Attorney W. Ray Stewart, Topeka, Kansas, however, declined prosecution of John William Anglin on the basis that insufficient evidence for collusion with Clarence Anglin in the escape was present to serve as a basis for presentation to the grand jury. The Bureau of Prisons, of course, was fully advised as to the facts of the attempted escape and the prosecutive action taken.

Memorandum to Mr. Evans  
Re: Frank Lee Morris - FUGITIVE, et al.

ACTION:

1. The Attorney General has been advised by memorandum of the previous Federal escape record of the Anglin brothers at Leavenworth in connection with the data furnished him concerning the Alcatraz escape.

2

2. Immediately upon learning of the escape from Alcatraz we instructed San Francisco to present the facts to the U. S. Attorney in order to obtain a warrant under the Federal Escape Statute to insure prosecution of these individuals for escape. Complaints charging the three escapees were authorized and filed June 13, 1962, at San Francisco, California.

With reference to SAC Price's call indicating a possible escape of three individuals from Alcatraz today, Price has now advised that a fourth prisoner has been located who was aware of the escape plot but decided not to risk the attempt. Identities of the escapees have now been established as Frank Lee Morris, Alcatraz No. 1441; Clarence Anglin, Alcatraz No. 1485; and John William Anglin, Alcatraz No. 1476.

The prisoner has advised that life rafts were to be fashioned of a raincoat-type of material and that the plan involved an attempt to go to a second island and thence to the mainland. Some physical evidence near the water's edge indicated activity in the area from which subjects had planned to depart and it, therefore, has been concluded that the prisoners left the Alcatraz Island.

James Bennett, Director, Bureau of Prisons, has advised Mr. Rosen's office of the escape and has stated that the Bureau of Prisons is getting an immediate press release to the effect the escape has taken place.

All-out investigation is being pressed to locate subjects.
